### NEED ACCESS TO CHANGE INSIDE METER – FINAL LETTER

Dear California American Water Customer:

We previously contacted you with regard to changing the water meter inside your home. It is important to us, as we know it is to you, that your bill is accurate and reflects the actual water usage at your property. We have determined that your meter needs to be repaired or replaced due to <variable data>. Unfortunately, we have not received a response to this request.

Because the meter is located indoors, we will need access to the property to perform the required meter change. There is no cost to you to have this work performed. Please contact our Customer Service Center at the number listed below to make an appointment. Our customer service representatives are available Monday through Friday, 7 a.m. to 7 p.m.

To prepare for the meter change we ask that you have cleared access to the water meter and that an adult, at least 18 years of age, be present while we perform the replacement. During the process of the meter change the water service will be interrupted for a short time. The installation typically takes about 30 minutes.

As a reminder, state regulations entitle us access to the meter at all reasonable times. Failure to allow access to perform the needed meter replacement can result in your water service being discontinued. Should your water service be discontinued for non-access, there will be an additional fee to have your water service reconnected.

If we do not hear from you within 10 days of the date of this notice, we will begin the process to discontinue your water service. Please call as soon as possible as this is a step we would very much like to avoid. If you have already scheduled an appointment to have your meter changed, please accept our thanks and disregard this letter.

**Safety tip:** We care about the safety of our customers. Any time a service person comes to your door, always ask for proper photo ID before letting them into your home. Our employees and contractors carry company-issued photo ID badges.

We appreciate your prompt attention to this matter.

Sincerely,

California American Water Customer Service
